2. LEGAL PROHIBITION OF MONEY LAUNDERING

- 2.1. Money laundering generally involves activity designed to conceal or disguise the true origins of the criminal proceeds of crime. Money laundering occurs in three (3) stages:
 - (a) Placement Stage

Direct asset(s) from criminal activities is converted into monetary or other instruments, such as payment in cash, exchange of bills, manual exchange, cryptocurrency or real estate, or deposited into accounts at financial institutions.
 - (b) Layering Stage

The converted assets are transferred or moved into other accounts or other financial institutions to further separate the money/asset from its original criminal source.
 - (c) Integration Stage

The converted assets are reintroduced to purchase legitimate assets or for other illegal activities.

- 2.2. Terrorism financing involves an attempt to conceal either the origin of the asset/money or their intended use, such as a criminal purpose. Terrorism financing can involve legitimate sources of assets/money.
- 2.3. The law in Saint Vincent and the Grenadines where WeTrade is incorporated prohibits the use of the proceeds of crime from activity such as money laundering and the financing of terrorism.
